PVE Panel Convector Heater with Electronic 7-Day Timer

The PVE panel heaters feature an electronic timer which offers a 7-day programme with 6 heating periods per day. The digital control panel has an easy-to-read display and large control buttons, including a switch to manually power on or off the heater. There is also an electronic lock to prevent tampering with controls. Other features include open window detection, 15-minutes Boost and copy day function.

The open window detection recognises a sudden temperature drop when a window is opened and turns the heating off to save energy. Once the window is closed, the temperature change triggers the heating to resume its normal operation. These slimline heaters have strengthened grilles to increase durability and feature a snap-on bracket on their wall mounting system which allows easy installation and dismounting for cleaning and decorating.

Ideal for hotels, offices, bedrooms, kitchens, bathrooms and laundries.

- 1kW, 1.5kW or 2kW rating.
- 7-day timer with electronic thermostat.
- 6 heating periods per day.
- Timer battery backup.
- Very quiet operation.
- Open window detection.
- Copy day function.
- 4 operating modes: Programme, Boost, Setback & Manual
- 15-minutes Boost feature.
- Comfort heat setting between 15°C to 35°C.
- Setback temperatures can be used for frost protection or maintaining a minimum room temperature between 4°C to 15°C.
- Automatic safety cut-out.
- Can set temperatures in degrees Celsius or Fahrenheit.
- Maintains temperature within 0.7 degrees.
- Easy-to-read display.
- Easy operation.
- Large control buttons with tactile feedback.
- Electronic child lock.
- Slimline and clean design.
- Splash proof to IP24 for use in bathrooms and other damp areas.
- Hinged wall mounting system for easy installation and decorating.
- Fitted with 1m of supply cable.
- Finished in white.
