

FLEXSTORE

HEAT ONLY ELECTRIC BOILER & SYSTEM

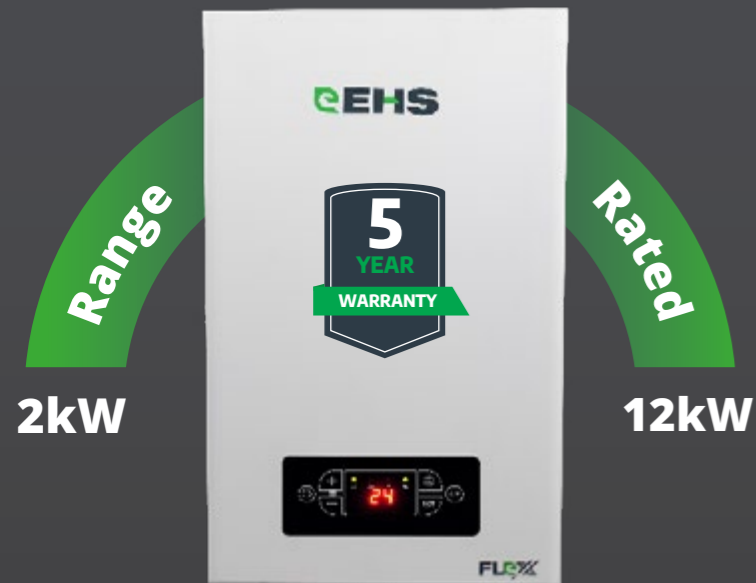

A complete heat only electric solution combining efficient boiler performance with integrated hot water storage.

Range-rateable from 2kW to 12kW

Flexstore - Heat Only Electric Boiler

The EHS Heat Only Electric Boiler is designed to simplify specification, streamline installation, and adapt to real world heating demands.

Unlike traditional electric boilers that come in fixed outputs, the EHS boiler is **range-rateable from 2kW to 12kW**, allowing a single unit to be configured to suit a wide range of property sizes and system requirements.

- **Range-rateable 2kW-12kW**
one boiler adapts to multiple property sizes
- **5-year manufacturer guarantee**
more than double typical market standard
- **100% efficient at point of use**
- **Virtually silent operation**
- **No flue required - flexible installation location**
- **No emissions / no carbon monoxide risk**
- **Compatible with radiators and underfloor heating**
- **Compact, space-saving design**
- **No gas certification required**

Flexstore - Boiler & Cylinder

Designed for Real-World Installations: Flexstore is built for installers and specifiers, combining key components into one integrated range rateable system for faster, simpler installs and reliable performance. A complete, easy-to-fit solution that simplifies specification, reduces install time, and makes the move to electric straightforward.

Performance You Can Rely On: Available in 150L and 200L, Flexstore delivers fast reheat, low heat loss, and consistent system performance, ideal for both retrofit and new build.

- **All-in-One System**
Boiler + cylinder designed to work together seamlessly
- **Range rateable to match property heating demand**
- **Future-Ready**
Supports the transition to low-carbon, electric heating
- **Space Efficient**
Compact footprint with integrated components
- **Fast Reheat Performance**
High-output coil delivers rapid hot water recovery
- **Installer Friendly**
Pre-configured layout reduces install time

Cylinder Vessel - 25 Years
Cylinder Parts - 2 Years
