

TECHNICAL DATA SHEET

Product Code: 185302

Product Description: Elecstore 12 Litre dehumidifier with wheels WDH33A12E

Product Image:

Product Details

Dimensions:

458 (H) x 188 (W) x 301 (L) mm

A dehumidifier is an air conditioning device which reduces and maintains the level of humidity in the air. This is done usually for health or thermal comfort reasons or to eliminate musty odor and to prevent the growth of mildew by extracting water from the air. A dehumidifier can help reduce allergens and ease breathing but could worsen conditions like pneumonia if the air is too dry. It can also cause skin and hair problems, as well as worsen a dry cough or stuffy nose.

- Compact size, handle for easy carry, LED display

Guarantee: 1 year for the unit, 3 years for the compressor
