

Multipoint Instantaneous

Instant water heating

Multipoint Instantaneous

Multipoint Instantaneous is the ideal compact hot water heater for remote locations such as a garage or cloakroom and is perfect for student and holiday accommodation.

All you need is mains water and electricity. Connect Multipoint Instantaneous to these and you have an instant supply of hot water for a shower or tap*. There's a choice of 7kW or 9kW power ratings to meet virtually every conceivable need.

Safety and reliability are fundamental to any good water heater. This is why we fit a safety cut-out to prevent overheating; why we protect Multipoint Instantaneous with a tough vandal-resistant ABS casing (it can also be concealed from view in many instances); and why it comes with the peace-of-mind of a two year manufacturer backed on-site parts and labour guarantee.

- 7kW or 9kW rating.
- Ideal for supplying hot water for bedsits, student accommodation and to remote areas.
- White moulded vandal resistant ABS casing.
- High temperature cut-out for safety.

*Multipoint Instantaneous can only supply one outlet at a time.

Full specifications, dimensions and ordering

Specification

Controls

A pre-set safety cut-out set at 88°C (190°F) prevents overheating should abnormal conditions arise.

Casing

Moulded from white ABS.

Inner container

Glass reinforced plastic cylinder, complete with inlet / outlet connections and element. A drain plug is fitted to drain the container to prevent freezing if left in winter.

Approvals

BEAB and Kiwa approved. CE marked.

Installation

Fittings

A pressure relief valve set to relieve at 10 bar is provided together with a tee-piece which must be fitted on the heater outlet pipework. This valve **MUST** be connected to waste (drain) via a tundish and the drain pipe should fall continuously and be of 22mm bore discharging in a safe visible manner. The pipe must not be reduced in bore or blocked under any circumstances and it should be protected from frost.

Pressure range

Minimum: 1 bar.

Maximum: 7 bar.

Connections

½" BSP inlet and outlet.

Guarantee

Multipoint Instantaneous carries a full two year transferable on-site service support guarantee against faulty manufacture or materials provided that:

- It has been correctly installed as per the instructions contained in the instruction manual and all relevant Codes of Practice and Regulations in force at the time of installation.
- It has been installed in the UK.
- It has not been modified in any way, other than by Heatrae Sadia Heating.
- The damage is not due to scaling or frost.
- It has only been used for the storage of potable water.
- It has not been tampered with or been subjected to misuse or neglect.
- Within 60 days of installation the user completes and returns the certificate supplied along with the proof of purchase to register the product.

Evidence of purchase and date of supply must be submitted. The units are not guaranteed against damage due to frost. The guarantee is transferable. This guarantee does not affect your statutory rights.

Dimensions

| Model | A (mm) | B (mm) | C (mm) |
|---------------------------------------|-----------|-----------|-----------|
| Multipoint Instantaneous – all models | 240 | 160 | 104 |
