# Installation Manual

Please retain this manual after installation for future reference and maintenance.

Images are for installation purposes only.
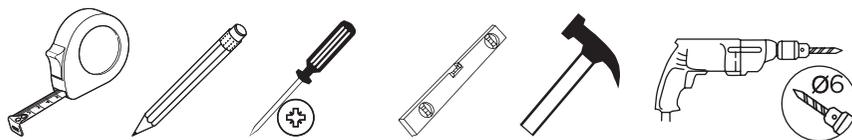

⚠️ **IMPORTANT**

Handle with care, impact can damage the mirror.
Use of safety equipment is advised.

**This product contains a light source of energy efficiency class "F".**

Tools Required(not provided)

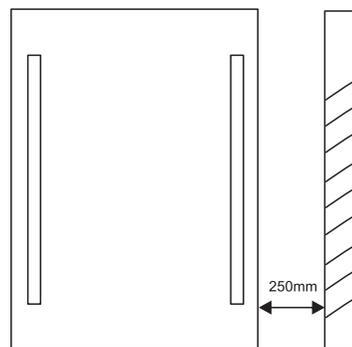

Ø6

Electrical Safety Installation Information

PLEASE NOTE:

- All electrical products should be fitted by a suitably qualified electrician in accordance with national wiring regulations（BS7671）.
- Ensure mains power supply is switched off before starting any electrical installation.
- Before drilling, ensure there are no hidden cables or pipes in the wall.
- The product is IP 44 rated and suitable for Zone 2:
  Zone 2 is an area stretching 0.6m outside the perimeter of the bath and to a height of 2.25m from the floor. In this zone an IP rating of at least IP 44 is required. In addition it is good practice to consider the area around a wash basin, within a 60cm radius of any tap to be considered as zone 2. However the connection to the mains supply must be outside the zone.
