

Service tool CNS

CONVECTORS

PRODUCT-NO.: 203981

Retain full control

This separate tool allows you to set the course for an ideal connection between heating comfort and efficiency. This is possible using the special room control operating mode with the associated direct heating. As the operator, you make the appropriate settings yourself and program the set values for comfort temperature, setback and frost protection. Since the user cannot change these values, you retain full control over heating costs .

The main features
