INTRODUCTION

This guide is intended for use by competent electrical installers to explain basic requirements and options to be considered when installing a Sync Energy Charger and its associated accessories.

The mounting stand is designed for use to pre-poured concrete or other similar solid mounting surface. Suitable for use with the Sync Energy EVS7G/EVT77G Charger points.

①  Isolate power before opening any enclosures.	②  Suggested plinth size. Ensure Cable is central to the mounting plinth.
③  Use included mounting template for drilling mounting holes.	④  Remove Cable access plate to thread cable into through the stand.
⑤  Ensure ground bolts are secure.	⑥  Refit cable access plate.
