

ecoTEC plus

Combi boiler

 **Vaillant** Comfort for your home

Combi boiler

Best suited for:

One to four people

One to two bathrooms

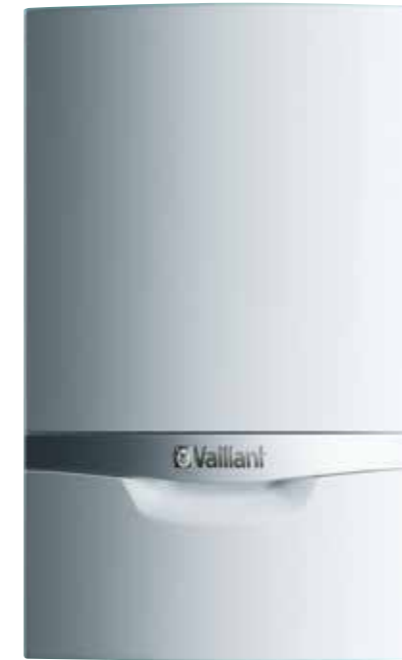

What are the advantages?

-  **Cost effective**
Only heats water on demand
-  **Energy efficient**
reduce your carbon footprint and save money on your fuel bill
-  **Instant hot water**
-  **Space saving**
no need for separate cylinder or loft tank so ideal for smaller properties
-  **Prevents frost damage**
-  **Designed for a peaceful home with Quiet Mark**
-  **Choice of app controls**

What is a combi boiler

'Combi' is short for combination boiler. This type of boiler heats water as you draw it from the tap and provides central heating. It doesn't need a cold water feed and expansion tank or a hot water storage cylinder because the boiler is connected directly to the water mains, meaning it only heats water as and when it is needed. As you only have the combi boiler unit in this heating system, it can free up space for conversion, storage and living. Homes that need larger supplies of hot water are usually better suited to a system or open vent boiler with a hot water cylinder.

Key features

- ErP A rated boiler with up to 94% efficiency, helping you to reduce your carbon footprint and save money on your fuel bills
- Premium quality stainless steel heat exchanger for superior heat transfer and highly efficient performance.
- Rapid hot water delivery of up to 15.9 litres per minute, heating only the water you require.
- For varying property sizes, ecoTEC plus combi boilers are available in 25, 32, 35 and 38kW heat outputs
- Quality German design and engineering which is manufactured at award-winning UK facilities
- Designed for a peaceful home, the ecoTEC plus is awarded the Quiet Mark for its reduced noise
- Compatible with Vaillant's vSMART™ app based control for heating on the go

ecoTEC plus

High efficiency combi boiler range

Extremely reliable and displaying all the in-built quality Vaillant is known for, the ecoTEC plus is clearly one of the best combi solutions available today.

The ecoTEC plus combi boiler is available in a range of power outputs to meet the heating requirement of your home.

All ecoTEC plus boilers offer low energy consumption and premium components to give outstanding performance.

Each one is ultra-quiet, awarded the Quiet Mark for innovative reduced-noise design by the Noise Abatement Society, and designed for a peaceful home.
